

www.tajpharma.com

In the treatment of disorders in the functioning of the **brain (reduced intellectual ability and alertness). Giddiness buzzing in the ears, head-ache poor memory, weakening of the voice resulting from anxiety.**

An Antioxidant

NOW APPROVED MEMORY BOOSTER

TAJ GINKGO BILOBA[®]
(Ginkgo biloba leaf extract) 40mg

An antioxidant that helps prevent memory loss and dementia.

NOW APPROVED MEMORY BOOSTER

TAJ GINKGO BILOBA[®]
(Ginkgo biloba leaf extract) 40mg

Uses of ginkgo biloba. Ginkgo is used as an herbal remedy to treat many conditions. It may be best known as **a treatment for dementia, Alzheimer's disease, and fatigue.**

There is no standard dose of ginkgo biloba supplements. However, in medical studies, almost all clinical trials have used a standardized extract of ginkgo, standardized to 24% flavone glycosides and 6% terpene lactones. A common dose in people with dementia is 40 milligrams of that extract three times daily

Product Description

Although the Ginkgo tree has been around for many millions of years, it has only been during the last few decades that its true value has been recognized. Among its medicinal uses, ginkgo biloba shows most promise as a circulatory aid, helping to increase blood flow to the brain which may be useful for memory loss, vertigo, tinnitus, disorientation, headaches and depression, especially in the elderly and the elderly not responding to antidepressant drugs. Increasing amounts of evidence show that ginkgo may in deed help to relieve cerebral insufficiency, which is defined as a decrease in blood supply to the brain.

Increasing amounts of evidence show that ginkgo may in deed help to relieve cerebral insufficiency, which is defined as a decrease in blood supply to the brain.

Quick-absorption ginkgo biloba may deliver brain-boosting effects!

May enhance clarity, concentration and memory. Also provides antioxidant protection! How does Ginkgo Biloba work?

Ginkgo is a unique, highly bioavailable form of the herb ginkgo biloba. Unlike other ginkgo biloba extracts (GBE). GBE may enhance blood circulation to the brain, which may promote mental alertness, clarity and concentration. GBE also promotes delivery of oxygen and glucose to nerve cells, for nervous system support.

In addition, GBE is a rich source of antioxidant flavonoids. Antioxidants protect healthy cells from damage caused by free radical (unstable) molecules in the body. Daily value not established.

Other Ingredients: Vegetable Gelatin, magnesium stearate, Dicalcium Phosphate (Anti caking Agent (341 I)). Class II Preservatives 218.
